

1 Please replace the paragraph beginning at page 3, line 14 of the
2 Specification with the following:

3
4 --What follows is a detailed description of one embodiment of a system for
5 journalling non-navigation related activities to enable a user to easily navigate
6 backward and forward not only through actual distinct resources that the user has
7 visited, ~~bus~~ but also different states of a resource. It will be appreciated that the
8 invention is not limited to the described embodiments alone, and that alternatives
9 will become apparent to those skilled in the art.--
